## Interactive Leadership & Culture Workshops

Peter creates highly interactive, human-centered leadership experiences that help organizations strengthen trust, communication, accountability, courage, and culture at scale. His sessions combine organizational development, employee experience strategy, behavioral insight, facilitation expertise, and modern workplace realities including AI transformation and change fatigue.

### Signature Workshop Topic Examples

Workshop	Focus
Courageous Clarity	Purpose, boundaries & courageous leadership
Building Trust at Scale	Leadership behaviors that shape culture
Neurodiversity in the Workplace	Creating teams where different brains thrive
Gratitude Mapping	Recognition, resilience & connection
Human-Centered Accountability	Ownership without fear
AI & the Future of Work	Leading through transformation

### What Makes These Workshops Different

- Interactive and experiential rather than lecture-based
- Built around real organizational challenges and leadership dynamics
- Designed to create psychological safety and meaningful conversation
- Combines business strategy, coaching, and systems thinking
- Participants leave with immediately actionable tools and reflection
- Rooted in executive leadership experience, social work, and organizational development

### Workshop Formats
